

# THE NOZZLE FORWARD

CAUTION

THIS IS A PHYSICALLY DEMANDING COURSE

**Nozzle Forward: What, Why, When, How.  
& "I Went To The Woods"**

The one thing that every fire department in the country has is fire hose. The one event that happens on every single fire is a hose-line gets pulled and water gets flowed. The Nozzle Forward is a class for engine company crews. It is not a collection of technique; it is an adaptable system of hose line management and fire attack. It is focused around fighting fire, interior offensive firefighting, aggressive firefighting, for which we will never apologize. Aggressive firefighting is not the problem; it is the solution.
